EXPERIENCE

Dare Academy

2025

Abertay University's Dare Academy - Focused on Weapons and UI programming in Unreal engine 5 as well as communication skills with a team of 8. As well as a focus on getting animations to work with the code and talking to the animator for the project

The Studio (Customer Service)

2022-2025

A big focus on customer service and people management, making sure to help people with their needs and communicate efficiently for project deadlines or delays on orders.

Dans Goods (Barista)

2018-2022

A focus on customer satisfaction, management skills and training new staff. Constant check that all needed stock is in place and making sure everything needed for the making food and coffee was organized and available.
